EDUCATION

University of California, Davis Bachelor of Science in Computational Cognitive Science (Computer Science + Psychology) Mar. 2026

EXPERIENCE

Compass Real Estate | Project Manager, Marketing & Operations | Palo Alto, CA April. 2026 - present

- Manage marketing, transaction, and renovation projects for luxury residential properties, coordinating across lenders, contractors, designers, inspectors, and local government.
- Design floorplans, renderings, and marketing campaigns, accelerating content production and client-facing communications with the assistance of AI/LLMs.
- Analyze local housing market trends and performance metrics to create data-driven reports and targeted prospecting.
- Optimize social media and branding initiatives based on performance data including listing campaigns, client testimonials, market updates, and content strategies to increase outbound pipeline and agent visibility.

PagerDuty | Commercial Marketing Intern | San Francisco, CA Jul. 2025 - Sept. 2025

- Analyzed churn trends across 1,200+ customer accounts representing $2.9M+ ARR, identifying 48 high-value risk segments to inform retention and lifecycle marketing strategy.
- Built daily churn dashboards in Excel and Google Sheets using Salesforce and Tableau data, presenting UI/UX, pricing, and customer service issues to the sales and marketing team to revise outreach sequences and customer touchpoints.
- Identified stalled expansion opportunities between customers and Account Executives, improving pipeline visibility and supporting faster re-engagement on at-risk deals.
- Developed 500+ targeted prospect accounts focusing on AI and emerging tech accounts, contributing to 200+ high-intent outbound qualifications and general improved targeting.
- Applied cognitive psychology principles to refine reach out sequences, landing page structure, and customer journey touchpoints, improving clarity of value proposition and engagement.
- Analyzed daily ARR and churn performance against prior-quarter and year-over-year benchmarks, informing retention efforts that contributed to a 29% reduction in quarterly churn over the course of the internship.

Design Interactive | UI/UX Designer | Davis, CA Sept. 2023 - Jun. 2024

- Conducted user research and usability testing to identify friction points and improve digital product experiences.

California Democratic Party | Ambassador, Digital Campaigns | Davis, CA Sept. 2022 - Jan. 2023

- Developed social media campaigns across TikTok and Instagram generating 15K+ engagements.

PROJECTS

Navify deck | Campus Navigation System Built Using AI Algorithms

- Built indoor/outdoor navigation system using A* pathfinding, computer vision, and contextual routing models.
- Applied Markov chain modeling and weighted optimization (traffic, safety, weather) to improve navigation behavior.
- Evaluated search/optimization algorithms, selecting the most effective solution based on navigation accuracy and performance.

Heart Failure Risk Prediction link **|** Machine Learning Project

- Tasked to develop a Naive Bayes classifier to predict mortality using clinical features in a 621-patient dataset.
- Evaluated model performance under severe class imbalance and contributed methodology, limitations analysis, and presentation visuals to communicate findings.

SKILLS

Data & Tools: Tableau, Salesforce, Excel, Python, ZoomInfo, GitHub, VSCode, Claude, Gemini, Codex, ChatGPT, MailChimp, GainSight

VOLUNTEERING

Massachusetts Institute of Technology (MIT) | Judge & Mentor | Cambridge, MA

- Invited to mentor and judge HackMIT 2026, an international hackathon with more than 1,200 participants and 50+ sponsoring companies.
